

Certifications and Green Initiatives

ARE MEDALLION® CABINETS KCMA CERTIFIED?

- KMCA is a product performance standard for the cabinet industry.
- Medallion cabinets are KCMA compliant and certified.
- For more information visit the KCMA website at www.kcma.org

ARE MEDALLION CABINETS ESP CERTIFIED?

- ESP, Environmental Stewardship Program, is a product sustainability certification for the cabinet industry.
- Medallion cabinets are ESP compliant and certified.
- For more information on ESP visit www.greencabinetsource.org.

ARE MEDALLION CABINETS LEED® CERTIFIED?

- Medallion is a responsible manufacturer utilizing sustainable processes that may contribute towards LEED points.
- Buildings can obtain LEED certification by using products that contribute LEED points.
- Visit the U.S. Green Building Council website for more details at <http://www.usgbc.org>.

ARE MEDALLION CABINETS FSC CERTIFIED?

- There are more than 50 forest certification programs available worldwide.
- Some of the woods Medallion uses are SFI certified rather than FSC.
- SFI values include protection of biodiversity, species at risk and wildlife habitat, sustainable harvest levels, protection of water quality and prompt regeneration.
- Visit the SFI website for more details at <http://www.sfiprogram.org>.

Medallion®

ARE MEDALLION PRODUCTS MADE IN THE USA?

- Medallion cabinets are manufactured by Elkay. Like your family, the Elkay family has values and traditions that endure. For almost a century, Elkay has been an American-owned and operated company, providing thousands of jobs that support our families and communities.
 - We proudly source hardwood and plywood domestically.
 - All assembly is done in the USA which means your purchase helps create jobs here at home.
-

ARE MEDALLION CABINETS CARB COMPLIANT?

- The California Air Resource Board sets and manages standards for air quality including formaldehyde emissions from composite wood panels.
 - Medallion cabinets are manufactured from CARB compliant and certified materials.
-

DOES MEDALLION USE FORMALDEHYDE?

- Medallion makes a difference with our products by partnering with suppliers to ensure continued environmental stewardship. We select materials manufactured to meet or surpass current regulatory requirements, including low formaldehyde emissions.
 - All of the wood we use complies with CARB formaldehyde emission standards.
-

ARE MEDALLION CABINETS GREEN?

- Our products are KCMA and ESP certified which means our materials and processes are qualified accordingly.
- Our paint curing ovens utilize the latest in light technology making them 50 percent more efficient than conventional gas ovens.
- All sawdust and wood shavings generated in our manufacturing process are recovered through a filtration system, removing 99.99 percent of dust particles. This eliminates virtually any discharge of wood dust into the atmosphere and it returns warm air back into the factory, conserving energy.
- The air filtration system in our paint department removes 99.97 percent of particulate matter, keeping our air clean inside and out.
- By deploying an innovative technologies in our facilities, we've dramatically changed the way wood finishes are prepared for application which helps reduce waste by minimizing disposal of unused material.
